

## LED

## Application

This product is suitable to be used for the repairing, police, military, and other night work tasks. It can also be used for signal communication and personal indicator to identify the worker's position.

## Characteristics of Performance

- It adopts CREE LED light source. Its beam range can reach 50meters.
- It is sealed to IP67, water proof to 1 meter. Powered by lithium battery which provide a long service life and low discharge performance.
- Light mode: white worklight and strobe light. The strobe light's effective beam distance can exceed 5000meters.
- This product has battery status indication and low battery warning function, Operator can check the battery status at any time. Towards the end of discharge, the beam flashes off repeatedly, warning recharging is required.
- The flashlight cover has anti skidding treatment. And it is designed for easy storage in pocket.
- The recharging and discharging is controlled by the chip with multiple protection.

## Main specification

Specification	Unit	BW7300D
Rated Voltage	V	3.7
Rated Power	W	1
Rated Capacity Of Battery	mAh	2,200
Light Output	lm	190
Effective Beam Range	m	80
Runtime	h	6
Recharging Time	h	6
Service Life	h	100,000
Dimension	mm	φ 28 × 130
Net Weight	g	118

Tail switch

LED light source(CREE)

Angle adjustable buckle

Charger
